With more than Euros 3 Millions spent in renovation last winter, Cap d'Antibes Beach Hotel opens its doors to a new season, completely transformed.

In addition to the 27 existing since its first opening in 2009, 8 rooms & suites have been created in a new wing of the building, offering spectacular views over the charming Port du Crouton, at the doors of Cap d'Antibes. This extension includes a new type of suite. Combined, both new suites Design and Executive constitute a 130 sq. meters two bedroom apartment, overlooking the Mediterranean Sea. This Double suite features a Jacuzzi, a private access and an outstanding view over the Lerins islands. The 6 additional rooms also have fantastic views of Cap d'Antibes.

Cap d'Antibes beach hotel

The famous gourmet restaurant Les Pêcheurs, 1 Michelin star, has been redesigned to be integral part of the environment. It is nestled under refined lines, in a vegetal surrounding where Antoine Pierini* masterpieces are carefully placed.

For this new season, the hotel is also honored to welcome a new Head Chef: Nicolas Rondelli, former disciple of Alain Llorca, Francis Chauveau and Jacques Chibois.

To cap it all, Cap d'Antibes Beach Hotel now offers to its loyal guests new facilities with a wellness area featuring a treatment cabin for face and body care.

This “metamorphosis” indisputably contributes to reinforce the image of excellence of this Relais & Chateaux property.
